

Hello Race Friends,

Happy New Year! Here is some news about 2008 tours! As some of my guest recommended I have began to use an answering service. If at anytime they can not answer your question please ask to be patched to me. If I am on tour or not available they may need to take your name and let me call you back.

Speaking of calling back , I apologize for the time laps for the emails received during the holidays .I have been out of town for the state but will be glad to answer any one who I may have missed.

*Thanks to all of you that sent my husband cards in sympathy at the loss of his mother .He is thrown himself into his work and it seems to be Gods timing because as we call it in racing we are in the mist of the **Daytona crunch** .They are trying to get their Superspeedway truck ready for the wind tunnel and of course Daytona. They will be a red truck with the #8 it will be a Chevy Driver development for HASS CNC Racing. We are all excited to see Daddy's teams trucks on the track once again!*

Well for those who ask about Jonelle , She is 3 and so smart, we took her to Idaho to visit her grandparents and cousins . She did great on the planes. More about her by requestha ha

Tour stuff! Special Dale Earnhardt Behind the Scene Tour May 24th & Oct 11th .Come with me where the general public can't go ! The rate will increase in

the coming months . If you pay for your tour before I receive the changes I can honor the last year rate of \$100 per person that includes lunch and all the details on my website. Check website for details. The new rate may be as high as \$150 so take advantage!

I will also have a new tour cost \$80 with kids 10 and under for half price (discount not available during Race weeks) and a new itinerary soon to try and include Dale Jr's and Michael Waltrips new shops as they open. Stay tuned!

Thanks Trisha
